JOURNAL OF ECONOMIC ENTOMOLOGY

WALLACE P. MURDOCH, *Executive Secretary*
JAMES S. PACKER, *Managing Editor*
4603 Calvert Road, College Park, Maryland 20740

GEORGE ANASTOS, *Editor*
4603 Calvert Road, College Park, Maryland 20740

EDITORIAL BOARD

RALPH W. SHERMAN, *Chairman*, Silver Spring, Md. (E, 1974)

ROBERT E. MENZER, College Park, Md. (B, 1975)
L. R. NAULT, Wooster, Ohio (C, 1977)
ROGER H. GROTHAUS, Camp Lejeune, N.C. (D, 1976)
E. E. ORTMAN, Lafayette, Ind. (F, 1978)

A bimonthly journal devoted to the interests of economic entomology. Authors are entirely responsible for statements in the JOURNAL, whether of fact or opinion.

Subscriptions. Nonmembers in North America and U.S. Possessions–$30.00 per year; elsewhere–$32.00. Single copies $6.00. Deliveries overseas are not guaranteed and foreign mailings are made at the subscriber's risk. Subscribers will be charged a service fee of $1.00 for forwarding journals returned to the ESA because of failure of the subscriber to provide a timely change of address. Membership dues: Active $15.00; student $3.00. Members' subscription rates: $15.00 in North America and U.S. Possessions; $16.00 elsewhere.

Missing numbers cannot be supplied free of charge in North America and U.S. Possessions unless notice is received within 60 days after the appearance of issues concerned. The Executive Secretary will be glad to quote prices for back numbers.

Reprints. A reprint price schedule that applies to orders received before the JOURNAL goes to press is shown on the order blank sent with galley proof. No reprints are furnished gratis. For price schedule see BULL. ENTOMOL. SOC. AMER. 20 (4) : December 1974.

Business communications and matters pertaining to subscriptions and advertisements should be sent to the Executive Secretary. Changes of address must be received 5 days prior to the month of issue to be effective for that month.

Manuscripts and other copy should be sent to the Executive Secretary. Authors are urged to consult "Publication Policies and Instructions for Contributors" before submitting manuscripts (BULL. ENTOMOL. SOC. AMER. 19 (2) : 85, June 1973). Reproduction of abstracts is authorized. Page charges are $46.00 per page, partial pages proportionately.

METRIC CONVERSION

Contributors of papers on laboratory studies should use the metric system exclusively. Use of the metric system in reporting the results of field studies is a desirable ultimate objective. Since it is difficult to replace immediately such standard concepts as lb/acre by the units kg/hectare, yards by meters, or miles by kilometers, the following table of conversion factors is presented.

1 inch = 0.254 cm	1 ft^3 = 28.3 dm^3	1 cm = 0.394 in.	1 dm^3 = 0.0353 ft^3
1 yard = 0.914 m	1 acre = 0.405 hectares	1 m = 3.28 ft = 1.094 yards	1 hectare = 2.47 acres
1 mile = 1.61 km	1 lb/acre = 1.12 kg/hectare	1 km = 0.621 mile	1 kg/hectare = 0.89 lb/acre
1 lb = 453.6 g	1 lb/$in.^2$ (psi) = 70.3 g/cm^2	1 kg = 2.2 lb	1 g/cm^2 = 0.0142 psi
1 gal (U.S.) = 3.785 liters	1 lb/gal (U.S.) = 120 g/liter	1 liter = 0.264 gal (U.S.)	1 g/liter = 0.83 lb/100 gal (U.S.) = 1000 ppm

ENTOMOLOGICAL SOCIETY OF AMERICA

OFFICERS—1974

President—P. L. Adkisson, College Station, Texas
President-elect—K. L. Knight, Raleigh, North Carolina
Executive Secretary—W. P. Murdoch, College Park, Maryland

GOVERNING BOARD

P. L. Adkisson, College Station, Texas (1975)

K. L. Knight, Raleigh, North Carolina
(President-elect, 1976)

T. A. Brindley, Ankeny, Iowa
(North Central, 1975)

R. O. Drummond, Kerrville, Texas
(Southwestern, 1976)

G. B. Craig, Jr., Notre Dame, Indiana
(D, 1974)

G. E. Guyer
(Past President, 1974)

G. P. Georghiou, Riverside, California
(B, 1975)

R. H. Harwood, Pullman, Washington
(Pacific, 1974)

P. D. Hurd, Washington, D. C.
(A, 1975)

L. C. Kuitert, Gainesville, Florida
(Southeastern, 1974)

W. E. Waters, Moraga, Calif.
(C, 1976)

W. P. Murdoch, College Park, Maryland
(Non-voting)

E. H. Glass, Geneva, New York
(F, 1976)

H. E. Scott, Raleigh, North Carolina
(E, 1974)

A. J. Forgash, New Brunswick, New Jersey
(Eastern, 1976)

BRANCH OFFICERS

Presidents

C. H. Hoffmann, Hyattsville, Maryland (Eastern)
J. T. Schulz, Fargo, North Dakota (North Central)
H. L. McMenemy, Memphis, Tennessee (Southwestern)
W. W. Allen, Berkeley, California (Pacific)
S. B. Hays, Clemson, South Carolina (Southeastern)

Presidents-elect

David Pimentel, Ithaca, New York (Eastern)
Mahlon Fairchild, Columbia, Missouri (North Central)
W. H. Newton, College Station, Texas (Southwestern)
Clark Amen, Corvallis, Oregon (Pacific)
T. D. Canerday, Tifton, Georgia (Southeastern)

Secretary-Treasurers

H. T. Streu, New Brunswick, New Jersey (Eastern)
T. J. Helms, Lincoln, Nebraska (North Central)
J. P. Boyd, Carrollton, Texas (Southwestern)
R. D. Carter, San Leandro, California (Pacific)
J. B. Graves, Baton Rouge, Louisiana (Southeastern)

AUTHOR INDEX TO VOLUME 67

SUBJECT INDEX, VOLUME 67, 1974

A

AC 84,633, against *Boophilus microplus*, 387
Acaricide, twospotted spider mite metabolism of, 5, 574
  against Tetranychids in field cotton, 785
Acephate, tobacco protection by use of, 648
Activity studies, of cabbage looper, 741
Acyrthosiphon pisum, garden peas resistant to, 365
Adelphocoris lineolatus, ULV malathion against, 525
Aedes aegypti, 71
Aerially sprayed ULV carbaryl, against *Aulocara elliotti*, 596
Agrilus bilineatus, insecticides against, 427
A13-61585, mosquito pupal sterilization with, 337
Alanosine, cell type sensitivity to alanosine, 577
Aldicarb, slow release formulations of, 292
Alfalfa plant bug, ULV malathion against, 525
Alfalfa, resistance to alfalfa seed chalcid by, 219
  spotted alfalfa aphid and resistance in, 369
Alfalfa seed chalcid, alfalfa resistance to, 219
Alfalfa weevil, SJH against, 93
  effect of boron on, 130
  food consumption of, 141
  temperature and oviposition of, 203
  TH6040 against, 300
  early spring insecticide application against, 309
  glycoside conjugative activity in, 344
  determination of instars of, 801
Almonds, malathion as protectant for inshell storage of, 535
Amblyseius fallacis, toxicity of benomyl to, 675
American cockroach, glycoside conjugative activity in, 344
Amides of heterocyclic amines, as cockroach repellents, 639
Amphorophora agathonica, red raspberry immunity to, 311
Anagasta kuehniella, juvenile hormone analogue against, 789
Anastrepha ludens, control of, 775
Anastrepha suspensa, responses to light and water-immersion by, 731
Angoumois grain moth, synthesis of sex pheromone of, 319
Anisota senatoria, *Bacillus thuringiensis* var. *alesti* against, 390
Anopheles albimanus, control of, 184
  pupal sterilization of, 337
Anthonomus grandis, 44, 147, 171
  chemosterilization of, 278
  trap plots against, 281, 506
  slow release aldicarb against, 292
  azinphosmethyl against, 408
  abnormal behavior of mutants of, 701
Anthrenus flavipes, dichlorvos vapors against, 308
Antimicrobial agents, analysis of, 147
Aonidiella aurantii, control of, 403
Apanteles congregatus, laboratory rearing of, 716
Aphid transmission of WMV-1, 361
Aphis craccivora, control of, 693
Aphis gossypii, control of, 251
  soap sprays against, 783
Apis mellifera, 41
  temporary hives for, 197
  attraction for Japanese beetle lures by, 307
Apple maggot, insecticides against, 481
  traps and lures for, 484
  azinphosmethyl against, 556
Apple pests, bioeconomics of, 517
Application of insecticides vs effectiveness, 127
Argyrotaenia velutinana, trap for, 159, 448
Arthropods, chlordimeform-HCl against, 445
Artificial diet, sterilizers for, 689
  for clover root borer, 806
Artificial infestation, of corn earworm, 74
Arylterpenoid compounds, as juvenile hormones, 177
  against flies, 598
Asparagus, damage by *Brachycolus asparagi* to, 447
Atherigona varia var. *soccata*, ovipositional preference of, 265
Attagenus megatoma, 19
  malathion against, 571
Attractant-toxicant formulations, against eye gnats, 13, 641
  against *Reticulitermes*, 85
Attractiveness of synthetic compounds to *Vespula*, 629
Aulocara elliotti, aerially sprayed ULV carbaryl against, 596
Automated lighting cycler for the insectary, 305
Azinphosmethyl, against boll weevil, 408
  with petroleum against plum curculio, 433

B

Bacillus thuringiensis, against caterpillars, 102
  against gypsy moth, 351
  against *Heliothis* spp., 415
  insecticide effects on, 471
  against tobacco budworm, 755
Bacillus thuringiensis var. *alesti*, against orangestriped oakworm, 390
Banana weevil, dieldrin resistance in, 446

Bathyplectes curculionis, early spring insecticide applications against, 309
Bean leaf beetle, laboratory rearing of, 794
Beet yellows virus, sugarbeet resistance to, 25
Bembecia marginata, control of, 451
Benomyl, toxicity to *Amblyseius fallacis* by, 675
Bioeconomics, of apple pests, 517
Biting flies, control of: on beef steers, 232
Biological control, of tansy ragwort, 494
of thistles, 735
Black carpet beetle, insecticides and fecundity in, 19
malathion against, 571
Blattella germanica, 71
Bollworm, response to methyl parathion, 299
dosage-mortality studies of, 719
attack on semidwarf cottons by, 779
Boll weevil, slow-release Grandlure against, 44
antimicrobial agents in diet of, 147
attractiveness of reproducing males of, 171
chemosterilization of, 278
trap plots for suppression of, 281, 506
slow release aldicarb against, 292
azinphosmethyl against, 408
abnormal behavior of mutants of, 701
Boophilus microplus, AC 84,633 against, 387
Boron, effect on alfalfa weevil, 130
Bracon hebetor, sensitivity to alanosine by, 577
Brachycolus aspasagi, damage of, 447
Broadbean weevil, methyl bromide against, 799
Broad mite, attack on *Aphelandra* by, 791
Broccoli, resistance to garden symphylan in, 371
Bruchophagus roddi, alfalfa resistance to, 219
Bruchus rufimanus, methyl bromide against, 799
Bucculatrix thurberiella, longevity and reproduction of, 217
Bumble bee, attraction for Japanese beetle lures by, 307
Busseola fusca, control of, 310

C

Cabbage looper, effects of surface sterilization of eggs of, 33
methomyl foam against, 249
methomyl against, 681
activity studies of, 741
Cabbage maggot, control of, 243
California red scale, control of, 403
Calocalpe undulata, insecticides against, 706
Campoletis sonorensis, and NPV in *Heliothis virescens*, 229
effect of IGR's on, 335
Camptothecin, against house fly, 457
Caphus cinctus, wheat resistant to, 105
Carbamate insecticides, effect on *Bacillus thuringiensis* by, 471
against southern pine beetle, 763
against *Ips* bark beetles, 763
Carbaryl, against gypsy moth, 374
distribution of spray deposits of, 529
Carbofuran treatment, relationship to agronomic traits in maize, 556
Cardiochiles nigriceps, effect of IGR's on, 335
Carrot weevil, rearing method for, 140
Car top platform, for tree crown examinations, 454
Cassava, resistance to thrips by, 728
Catechols, against Culex mosquito, 153
Caterpillar control, 102
Cattle grubs, control of, 237
Cell type sensitivity to alanosine, 577
Ceramica picta, control of, 697
Ceratitis capitata, survival after immersion by larvae of, 303
control of, 355
Cerotoma trifurcata, laboratory rearing of, 794
Ceuthorhynchidius horridus, host specificity of, 735
Chemical control, of corn ear-infesting insects, 548
Chemosterilization, of *Dacus tryoni*, 3
by fumigation, 17
of boll weevil, 278
of tobacco budworms, 322
Cherry fruit flies, seasonal emergence of, 613
Chilo suppressalis, damage to rice fields by, 509
Chitin synthesis inhibitor, against soybean insects, 760
Chlordimeform, alone and with HCl, 445
Chlordimeform hydrochloride, against caterpillers, 102
Chlorpyrifos, against eastern subterranean termite, 721
Cholinesterases in *Heliothis virescens*, 187
Chrysocharis laricinellae, 805
Citrus red mite, control of, 403
Citrus trees, low volume spray control, 397
radiation reflection of, 479
Clover root borer, artificial diets for, 806
Coccinellidae, marking and dispersal of, 52
Cockroaches, repellents for, 639
Codling moth, trap for, 37
Cole crops, disappearance of Monitor residues from, 766
Coleomegilla maculata, sexing of, 136
radioisotope estimating of tobacco budworm consumption by, 703
Coleophora laricella, 47
parasite of, 805
Confused flour beetles, phosphine fumigation of, 436
Conotrachelus nenuphar, azinphosmethyl-oil against, 433
Control, of early-season insects, 130
of corn-eating insects, 141
of grasshoppers for long-term, 268
of soybean pests, 287
of *Eurytoma amygdali*, 298
of *Busseola fusca*, 310
of pink bollworm with pheromones, 347
of citrus pests, 397
of *Heliothis* spp. on cotton, 415
of aphids and pecan pests, 419
of insects in wheat flour, 430
of raspberry crown borer, 451
of ear-infesting insects of sweet corn, 548
of lettuce root aphid, 556
of apple maggot, 556
Control technology, and population dynamics of mosquitoes, 620
Corn, malathion penetration in, 477
chemical control of ear-infesting insects of, 548
leafhopper damage to, 656
wireworm attack of, 793

Corn earworm, artificial infestation of, 74
pecan as new host for, 295
Corn rootworms, trap-corn for control of, 748
^{14}C-Orthene, against pales weevil, 588
Corynothrips stenopterus, cassava resistance to, 728
Cosmopolites sordidus, dieldrin resistance in, 446
Cotton, resistance to tarnished plant bug by, 602
response to injury by tarnished plant bug, 686
bollworm attack on semidwarf varieties of, 779
Cotton damage by cotton fleahopper, 537
Cotton fleahopper, slow release aldicarb against, 292
cotton damage by, 537
Cotton leafperforator, longevity and reproduction of, 217
Cowpea aphid, control of, 693
Crop rotations, and pink bollworm emergence, 227
Cryptorhynchus mangiferae, cobalt-60 against, 504
Culex pipiens fatigans, control of, 184
Culex pipiens quinquefasciatus, 153
Curculio caryae, control of, 695
postharvest control of, 789

D

Dacus cucurbitae, survival after immersion by larvae of, 303
Dacus dorsalis, vapor heat treatment against, 240
larval immersion in alcohol and acetone, 303
control of, 355
Dacus oleae, effects of irradiation on, 253
Dacus tryoni, HMAC against, 3
Dalbulus maidis, damage to silage corn by, 656
DDT, toxicity to ostracods by, 22
Defoliation, forecasting of, 47
Dendroctonus frontalis, control of, 763
Diabrotica longicornis, control of, 668
trap-corn against, 748
Diabrotica virgifera, ULV malathion against, 525
population suppression of, 651
trap-corn against, 748
greenhouse evaluation of soil insecticides for control of, 772
Diapausing males, attractiveness of, 171
Diaprepes abbreviatus, laboratory evaluation of insecticides against, 694
Dichlorvos, detection with radioisotopes, 67
vapors against furniture carpet beetle, 308
sprayed with fuel oil against *Ips* spp., 678
Dicofol, against European red mite, 124
Dieldrin, banana weevil resistance to, 446
Diet, for greater wax moth, 497
Diet dispensers for insects, 312
Dipel, for control of lepidopterous pests of okra, 690
Dissection, silicone rubber dish for, 458
Distribution of spray deposits in peach trees, 529
Disulfoton, against aphids and pecan pests, 419
Draeculacephala crassicornis, JHA against, 181
Droplet sizes, deposition of ULV spray affected by, 751
Dust gun for delivery of insecticides, 563
Dust masks, testing of, 449

E

Eastern subterranean termite, organophosphates against, 721
Economic feasibility of scouting soybean insects, 644
Economic-injury levels, 29
Egg predators, of pink bollworm, 193
Eggs, surface sterilization of, 33
automatic collection of, 33
refrigeration of, 134
Electrical counter, two-channel, 689
Electric fields, against rice weevils, 592
Emergence, plowdown effects on, 207
Empoasca fabae, 29
pest status of, 201
Enaphalodes rufulus, temperature effects on, 709
Epilachna varivestis, control of, 137
Eriosoma lanigerum, 137
Ethylene dibromide, against Mexican fruit fly, 775
European corn borer, exclusion as control for, 97
effect of meridic diet on, 605
mating of, 616
European red mite, dicofol against, 124
Euxoa detersa, control of, 138
Eurytoma amygdali, control of, 298
Exoteleia nepheos, control and it's effect on parasitoids of, 803
Experimental induction of resistance to a juvenile hormone mimic, 799

F

Face fly, juvenile hormone mimics against, 69
as vector and host of mammalian eye worm, 304
TH6040 against, 697
Fall armyworm, nutritional plant sprays against, 58
larval survival of, 119
methomyl foam against, 249
peanut resistance to, 564
Fecundity, and sublethal doses of insecticides, 19
Fenthion, synergy with propoxur, 184
Fertility determination, of female gypsy moths, 296
Fertilizer-insecticide combinations against northern corn rootworm, 668
Fieberiella florii, seasonal cycle of, 299
Field rearing of Japanese beetles, 699
Flash sterilizers, for artificial diets for insects, 689
Flea control in rodent burrows, 67
Flies, arylterpenoid compounds against, 598
Foam, for insect control on corn, 141, 249
Forest tent caterpillar, NPV of, 135
Franklinella fusca, control of, 693
Frankliniella sp., cassava resistance to, 728
Fumigation, chemosterilization by, 17
of shelled peanuts with methyl bromide, 769
of Mexican fruit fly, 775
Fungicide, toxicity to *Amblyseius fallacis* by, 675
Furniture carpet beetle, dichlorvos vapors against, 308

G

Galecron, against *Tryporyza incertulas*, 131
Galleria mellonella, diets for, 497

Gamma irradiation, against insects in wheat flour, 430
Garden symphylan, broccoli resistance to, 371
German cockroach, repellents for, 71
Glycoside conjugative activity, 344
Gossyplure, trapping of pink bollworm with, 738
Grandlure, slow-release formulation of, 44
  improved dispenser for, 558
Granulosis virus diseased larvae, vacuum collection and trituration of, 793
Graphognathus, spp., control of, 804
Grapholitha molesta, trap for, 607
Grapholitha prunivora, trap for, 607
Grasshoppers, insecticide effectiveness against, 127
  refrigeration of egg pods of, 134
  long term control of, 268
Greater wax moth, diets for, 497
Greenbug, sorghum resistance to, 377
  sorghum mechanisms of resistance to, 393
  sorghum damage by, 456, 514
  insecticides against, 553
Greenhouse pests, evaluation of resmethrin against, 295
Greenhouse whitefly, insecticides against, 114
Green peach aphid, on resistant sugar beet, 25
Growth regulators, against midges, 165
Gypsy moth, NPV effects on, 61
  mating and fertility determination in, 296
  aerially-applied *Bacillus thuringiensis* against, 351
  aerially-applied carbaryl against, 374
  use of sex pheromone to prevent mating by, 659

H

Haematobia irritans, control of: on beef steers, 232
  sterilization of, 381
  control of, 384
Harlequin bug, Crucifer resistance to, 262
Head capsule caliper for determining instars of alfalfa weevil, 801
Heliothis armigera, resistance to insecticides by, 256
Heliothis spp., gut tissue comparisons of, 150
Bacillus thuringiensis against, 415
Heliothis virescens, 99
  cholinesterases in, 187
  Campoletis sonorensis and NPV interaction in, 229
  pecan as new host for, 295
  response to methyl parathion by, 299
  chemosterilization with thiotepa, 322
  population suppression of, 333
  study of sperm transfer by irradiated male, 463
  sucker control practices against, 551
  irradiation against, 610
  estimating lady beetle consumption of, 703
  dosage-mortality studies on, 719
  Bacillus thuringiensis against, 755
Heliothis zea, 74
  pecan as new host for, 295
  response to methyl parathion by, 299
  dosage-mortality studies of, 719
  attack on semidwarf cottons by, 779
Hickory shuckworms, in galls of *Phylloxera* spp., 692
Hippelates collusor, attractant-toxicant against, 13, 641
  control of, 631
Hippelates eye gnat, attractant-toxicant against, 13, 641
  control of, 631
Hives for disposable pollination units, 197
HMAC, against *Dacus tryoni*, 3
Honey bee, survival in insecticided fields by, 41
  temporary hives for, 197
  attraction for Japanese beetle lures by, 307
Horn fly, control of: effect on beef steer performance, 232
  sterilization of, 381
  control of, 384
Host plants, of *Fieberiella florii*, 299
Host specificity, of *Ceuthorhynchidius horridus*, 735
House fly, chemosterilization of, 1
  metabolism of acaricide in, 5
  juvenile hormone mimics against, 69
  chemosterilization of, 17
  glycoside conjugative activity in, 344
  camptothecin against, 457
  effect of nitrogen on competitiveness of, 562
  TH6040 against, 697
  IGR's against, 746
Hylastinus obscurus, artificial diets for, 806
Hylemya brassicae, control of, 243
Hylemya platura, control of, 284
Hylobius pales, ^{14}C-Orthene against, 588
Hypera postica, 93, 344
  effect of boron on, 130
  food consumption of parasitized larvae of, 141
  temperature and oviposition of, 203
  TH6040 against, 300
  early spring insecticide application against, 309
  determination of instars of, 801
Hypoderma spp., control of, 237

I

Immersion, *Anastrepha suspensa* responses to, 731
Imported fire ant, activity of IGR's on, 325, 584
Indian meal moth, glycoside conjugative activity in, 344
  phosphine fumigation of, 439
  PP 511 against, 450
Insect damage, to shortleaf pine, 222
Insect growth regulators, against imported fire ant, 325, 584
  against mosquitoes, 329
  effect on parasitoids of tobacco budworm, 335
  against stable flies, 459, 746
  against house flies, 746
Insecticides, fecundity and sublethal doses of, 19
  survival of bees around, 41
  in separating aphid biotypes, 64
  against spruce needleminer, 89
  against tobacco budworm, 99
  against vegetable leafminer, 108
  against greenhouse whitefly, 114
  against greenbugs, 553
  dust gun for delivery of, 563
  against sugarbeet wireworm, 665
  in combinations with fertilizer against northern corn rootworm, 668

Insecticides, (Cont'd)
against tomato pinworm, 671
against cowpea aphid, 693
against tobacco thrips, 693
laboratory evaluation against *Diaprepes abbreviatus*, 694
against pecan weevil, 695
against *Calocalpe undulata*, 706
against *Exoteleia nepheos*, 803
against whitefringed beetles, 804
Insecticides, systemic:
control of early-season insects by, 130
penetration and persistence of, 81
against Mexican bean beetle, 137
against oriental rat flea, 235
against cattle grubs, 237
effect upon soybean growth by, 302
soybean responses to, 442
Insect-resistant wheat, 105
Ips calligraphus, control of, 763
Ips grandicollis, control of, 763
Ips spp., dichlorvos-fuel oil sprays against, 678
Irradiation, substerilization by, 55
against mango weevil, 504
against tobacco budworm, 610

J

Japanese beetle, attraction to PEP and eugenol by, 139
milky disease against, 247
honey and bumble bee attraction to lures for, 307
field rearing method for, 699
Juvenile hormone, compounds related to, 177, 598
temperature dependency of effects of, 716
Juvenile hormone analogues, foliage sprays of, 181
effect on *Tribolium castaneum* by, 474
against Mediterranean flour moth, 789
Juvenile hormone mimic, against flies, 69
against pink bollworm, 173
arylterpenoid compounds as, 177
experimental induction of resistance to, 799

K

Keiferia lycopersicella, insecticides against, 671

L

Laboratory evaluation of insecticides against *Diaprepes abbreaviatus*, 694
Laboratory rearing of *Apanteles congregatus*, 716
of bean leaf beetle, 794
Lady beetle, marking and dispersal of, 52
radioisotope estimating of tobacco budworm consumption by, 703
Lady bird beetle, sexing of, 136
Larch casebearer, forecasting defoliation by, 47
parasite of, 805
Larvicides, against mosquitoes, 625
lipophilic diamine, 627
Laspeyresia caryana, in galls of *Phylloxera* spp., 692
Leafhopper damage to silage corn, 656
Lepidopterous pest control with Dipel, 690
Lesser appleworm, trap for, 607
Lettuce root aphid, control of, 556
Light, *Anastrepha suspensa* responses to, 731
Limonius californicus, insecticides against, 665
Lipophilic diamine larvicides, 627
Liriomyza munda, insecticides against, 108
Listroderes costirostris obliquus, control of, 699
Listronotus oregonensis, 140
Lixophaga diatraeae, device for dispensing larvae of, 795
Longevity, of soybean looper, 467
Lygus, timing of pesticides against, 77
Lygus bugs, development of parasite of, 132
Lygus hesperus, 132
control of, 259
Lygus lineolaris, ULV malathion against, 525
cotton resistance to, 602
cotton cultivar response to injury by, 686

M

Maize, carbofuran treatment on, 557
Maize weevil, effects of humidity on sorghum reactions to infestation by, 692
Malacosoma disstria, 135
Malathion, red flour beetle resistance to, 339
penetration in stored grains by, 477
against tarnished and alfalfa plant bugs, 525
as a protectant for inshell almonds during storage, 535
against black carpet beetle, 571
Mammalian eye worm, vector and host of, 304
Manduca sexta, 344
laboratory rearing of parasite of, 716
Mango weevil, cobalt-60 against, 504
Marking and dispersal of coccinellids, 52
Mating, of European corn borers, 616
Mating behavior, in irradiated fruit flies, 253
Mating determination, in female gypsy moths, 296
Mating frequency, in soybean looper, 467
Mating prevention, of gypsy moth, 659
Mediterranean flour moth, juvenile hormone analogue against, 789
Mediterranean fruit fly, survival after immersion by larvae of, 303
control of, 355
Melanotus, corn feeding by, 793
Melon fly, survival after immersion by larvae of, 303
Melon aphid, control of, 251
Meridic diet, effect on European corn borer by, 605
Meromyza americana, seasonal appearance and movement of, 558
Metaseiulus occidentalis, pesticide toxicity to, 543
Methomyl, against cabbage looper, 681
Methyl bromide, fumigation of shelled peanuts with, 769
against broadbean weevil, 799
Mexican bean beetle, systemic insecticides against, 137
Mexican fruit fly, control of, 775
Micronized dust, testing dust masks against, 449
Midges, aquatic: growth regulators against, 165

Migratory grasshopper, refrigeration of eggs of, 134
Milky disease, against Japanese beetles, 247
Mirex, against *Reticulitermes*, 85
Monitor, disappearance from cole crops of residues of, 766
Monocrotophos, against melon aphid, 251
Mosquito egg counter, 790
Mosquitoes, IGR's against, 329
  population dynamics models of, 620
  larvicide against, 625
Mosquito, culex: chemicals against, 153
Mosquito larvidides, lipophilic diamine, 627
Mouse, metabolism of acaricide in, 5
Murgantia histrionica, Crucifer resistance to, 262
Musca autumnalis, 69
  as vector and host for mammalian eye worm, 304
  TH6040 against, 697
Musca domestica, 1, 5, 69, 344
  chemosterilization of, 17
  camptothecin against, 457
  effect of nitrogen on competitiveness of, 562
  TH6040 against, 697
  IGR's against, 746
Mutant boll weevil as genetic marker, 701
Myzus persicae, 25

N

Naled, against lygus bugs, 77
Netting, against European corn borer, 97
Nezara viridula, damage of, 421 effect on soybeans by, 501
Nitidulid beetles, as pineapple disease vectors, 190
Nitrogen effect on competitiveness of irradiated *Musca domestica*, 562
Northern corn rootworm, control of, 668
NPV, effects on gypsy moth, 61
  effect of sunlight on, 135
  interaction with *Campoletis sonorensis* in tobacco budworms, 229
Nutrition, of cotton leafperforator, 217
  of soybean looper, 467
Nutritional plant sprays, against fall armyworm, 58
  effect on insect resistance by peanut, 565

O

Olive fruit flies, effects of irradiation on, 253
Orangestriped oakworm, *Bacillus thuringiensis* var. *alesti* against, 390
Organophosphates, effects of sublethal doses of, 19
  Bacillus thuringiensis and, 471
  against eastern subterranean termite, 721
Oriental fruit fly, vapor heat treatment against, 240
  survival after immersion by larvae of, 303
  control of, 355
Oriental fruit moth, trap for, 607
Oriental rat fleas, Control of, 235
Ostrinia nubilalis, 97
  effect of meridic diet on, 605
  mating of, 616
Oulema melanopus, wheat resistant to, 105
Oviposition, effect of boron on, 130
  of alfalfa weevil and temperature, 203
  preference of sorghum shoot fly for, 265
  of soybean looper, 467

P

Pacific spider mite, pesticides against, 543
Paleacrita vernata, insecticides against, 460
Pangaeus bilineatus, 111
Pales weevil, ^{14}C-Orthene against, 588
Panonychus citri, control of, 403
Panonychus ulmi, 124
Pea aphid, garden peas resistant to, 365
Peanut, resistance to fall armyworm in, 564
  insect resistance by, 565
Peas, varieties resistant to pea aphid, 365
Pecan insect species, attraction to light traps by, 461
Pecan weevil, control of, 695
  postharvest control of, 789
Pectinophora gossypiella, 55
  juvenile hormone mimic against, 173
  egg predators of, 193
  plowdown effects on emergence of, 207
  sex attractant of, 211
  crop rotation and emergence of, 207
  pheromonal control of, 347
  insecticides against, 517
  gossyplure for trapping of, 738
Pemphigus bursarius, control of, 556
PEP and eugenol, duration of attractancy of, 139
Periplaneta americana, 344
Peristenus stygicus, development of, 132
Pesticides, effect on ostracods, 22
  against lygus bugs, 77
Pesticide sprays, sodium alginates as adjuvants in, 797
Pest management programs, on lima beans, 259
Phenylurea compounds, against zebra caterpillar, 697
Pheromones, in chemosterilized male, 3
  of female angoumois grain moth, 319
Pheromone solution dispenser, 558
Pheromone traps, for codling moths, 37
Phosphamidon, in control of *Eurytoma amygdali*, 298
Phosphate insecticides, against southern pine beetle, 763
  against *Ips* bark beetles, 763
Phosphine fumigation, of sacked rice, 436
  of soybeans, 439
Phyllophaga crinita, evaluation of insecticides against, 455
Phyllozera spp., hickory shuckworms in galls of, 692
Pineapple disease, nitidulids as vectors of, 190
Pink bollworm, irradiation against, 55
  juvenile hormone mimic against, 173
  egg predators of, 193
  plowdown effects on emergence of, 207
  sex attractant of, 211
  crop rotation and emergence of, 227
  pheromonal control of, 347
  insecticides against, 522
  Gossyplure for trapping of, 738
Plodia interpunctella, 344

phosphine fumigation against, 439
PP 511 against, 450
Plum curculio, azinphosmethyl-oil against, 433
Polyphagotarsonemus latus, attack on *Aphelandra* by, 791
Popillia japonica, 139
milky disease against, 247
honey and bumble bee attraction to lures for, 307
field rearing method for, 699
Population dynamics models, of mosquitoes, 620
Population measuring, techniques of, 411
Population suppression, of tobacco budworms, 333
of tarnished and alfalfa plant bugs, 525
of western corn rootworm, 651
Porthetria dispar, 61
mating and fertility determination in, 296
aerially-applied *Bacillus thuringiensis*, 351
aerial carbaryl treatments against, 374
use of sex pheromone to prevent mating by, 659
Postharvest control of pecan weevil, 789
Potato leafhopper, damage by, 29
pest status of, 201
PP 511, against malathion-resistant Indian meal moths, 450
Propoxur, synergy with fenthion, 184
Pupal sterilization, of *Anopheles albimanus*, 337
Pseudatomoscelis seriatus, 292
cotton damage by, 537
Pseudoplusia includens, effect of nutrition on, 467

Q

Quadraspidiotus perniciosus, sex pheromone of, 561
Quinones, against Culex mosquito, 153

R

Radiation reflection, of molded citrus leaves, 479
Radioisotopes, to detect food-coated dichlorvos, 67
for estimating lady beetle consumption of budworms, 703
Raspberry crown borer, control of, 451
Rearing method, for carrot weevil, 140
Redbanded leafroller, pheromone trapping of, 159, 448
Red flour beetle, resistance to malathion by, 339
Red oak borer, temperature effects on, 709
Refrigeration, of egg pods, 134
Repellents, against cockroaches, 639
Reproducing males, attractiveness of, 171
Resmethrin, evaluation against greenhouse pests, 295
Reticulitermes flavipes, organophosphates against, 721
Reticulitermes spp., 85
Rhagoletis cingulata, seasonal emergence of, 613
Rhagoletis fausta, seasonal emergence of, 613
Rhagoletis pomonella, insecticides against, 481
traps and lures for, 484
azinphosmethyl against, 556
Rice, stem borer damage to, 509
Rice weevil, phosphine fumigation of, 436, 439
electric fields against, 592

S

San Jose scale, sex pheromone of, 561
Schizaphis graminum, sorghum resistance to, 377
sorghum mechanisms of resistance to, 393
sorghum damage by, 456, 514
insecticides against, 553
Scouting, of soybean insects, 644
Scutigerella immaculata, broccoli resistance to, 371
Seasonal abundance of pests of soybeans, 487
Seasonal appearance, of wheat stem maggots, 558
Seasonal cycle, of *Fieberiella florii*, 299
Seasonal emergence, of cherry fruit flies, 613
Seasonal movement, of wheat stem maggots, 558
Seedcorn maggot, control of, 284
Seed treatment, against seedcorn maggot, 284
Sex attractant, of pink bollworm, 211
Sexing, of lady bird beetles, 136
Sex pheromone, of female angoumois grain moth, 319
of San Jose scale, 561
mating prevention of gypsy moth with, 659
Shortleaf pine, insect damage to, 222
Silage corn, damage by leafhoppers to, 656
Silicone rubber dish, for insect dissection, 458
Sitophilus oryzae, phosphine fumigation of, 436, 439
electric fields against, 592
Sitophilus zeamaize, effects of humidity on sorghum reactions to infestation by, 692
Sitotroga cerealella, synthesis of sex pheromone of, 319
Soap sprays, against stemfeeding aphids, 783
Sodium alginates, as adjuvants in pesticide sprays, 797
Soil insecticides, for control of western corn rootworm, 772
Solenopsis invicta, activity of IGR's on, 325, 584
Solenopsis xyloni, 111
Sooty mold fungus, reflectance of citrus leaves with, 479
Sorghum, resistance to greenbugs in, 377
mechanisms of resistance to greenbugs in, 393
greenbug damage to, 456, 514
malathion penetration in, 477
reactions to maize weevil infestation of, 692
Sorghum shoot fly, ovipositional preference of, 265
Southern cattle tick, AC 84,633 against, 387
Southern chinch bug, St. Augustinegrass resistance to, 275
Southern fire ant, against *Pangaeus bilineatus*, 111
Southern green stink bug, damage of, 421
effect on soybeans by, 501
Southern pine beetle, control of, 763
Soybean insects, scouting feasibility of, 644
TH6040 against, 760
Soybeans, damage by potato leafhopper to, 201
minimum rates of insecticides on, 287
effect of systemic insecticides on growth of, 302
measuring insect populations on, 411
damage by southern green stink bug, 421
phosphine fumigation of, 439
responses to systemic insecticides, 442
seasonal abundance of pests on, 487
effect of *Nezara viridula* on, 501
effect of defoliation and depoding on yield of, 683
Sperm transfer study of irradiated tobacco budworm, 463

Spodoptera frugiperda, 58, 119, 249
peanut resistance to, 564
Spotted alfalfa aphid, new virulent biotype of, 64
resistance in alfalfa to, 369
Spray droplet distributions, method for evaluation of, 397
Spring cankerworm, insecticides against, 460
Spruce needleminer, biology and control of, 89
Stable fly, control of, 384
IGR's against, 459, 746
Stemborers, Galecron against, 131
damage to rice fields by, 509
Stenotaphrum secundatum, resistance to, 275
Sterilization, by fumigation, 1
of horn fly, 381
Stomoxys calcitrans, control of, 384
IGR's against, 459,746
Sucker control practices against tobacco budworm, 551
Sugar beets, resistance to beet yellows in, 25
Sugarbeet wireworm, insecticides against, 665
Sugarcane, nitidulids as disease vectors to, 190
Sunlight, effect on NPV by, 135
Survival, after artificial infestation, 119
Synanthropic flies, attractants for, 13, 631, 641
Synthetic compounds, attraction of *Vespula* by, 629
Synthetic juvenile hormones, against alfalfa weevil, 93

T

Tabanidae, control of: on beef steers, 232
Taniva albolineana, 89
Tarnished plant bug, UMV malathion against, 525
cotton resistance to, 602
cotton cultivar response to injury by, 686
Temperature, effect on ostracods, 22
effect on alfalfa weevil oviposition, 203
effect on red oak borer, 709
juvenile hormone effects on *Adoxophyes orana* dependent on, 711
Tetranychus arabicus, acaricides against, 785
Tetranychus cucurbitacearum, acaricides against, 785
Tetranychus pacificus, pesticides against, 543
Tetranychus urticae, 5
Nicotiana species resistance to, 341
acaricide metabolism by, 574
TH6040, against alfalfa weevil, 300
against flies, 697
against soybean insects, 760
Therioaphis maculata, 64
resistance in alfalfa to, 369
Tissue comparison of *Heliothis* larvae, 150
Tobacco budworms, low insecticide control of, 99
cholinesterases in, 187
Campoletis sonorensis and NPV interaction in, 229
pecan as new host for, 295
response to methyl parathion by, 299
chemosterilization with thiotepa, 322
population suppression of, 333
study of sperm transfer by irradiated male, 463
sucker control practices against, 551
irradiation against, 610
estimating lady beetle consumption of, 703
dosage-mortality studies of, 719
Bacillus thuringiensis against, 755
Tobacco hornworm, glycoside conjugative activity in, 344
laboratory rearing of parasite of, 716
Tobacco protection with acephate, 648
Tobacco species resistant to twospotted spider mite, 341
Tobacco thrips, control of, 693
Tomato pinworm, insecticides against, 671
Trap-corn, for control of corn rootworms, 748
Traps, with slow-release Grandlure, 44
for codling moth, 37
for redbanded leafroller, 159
against boll weevil, 281, 506
for redbanded leafroller moths, 448
for pecan insect species, 461
for apple maggot, 484
for oriental fruit moth, 607
for lesser appleworm, 607
for pink bollworm, 738
Tree crown examinations, from car top, 454
Trialeurodes vaporariorum, 114
Tribolium castaneum, resistance to malathion by, 339
effect of juvenile hormone analogues on, 474
Tribolium confusum, phosphine fumigation of, 436
effect of juvenile hormone analogues on, 474
Trichoplusia ni, 33, 249
methomyl against, 681
activity studies of, 741
Triozocera mexicana, against *Pangaeus bilineatus*, 111
Tryponyza incertulas, damage to rice fields by, 509
Galecron against, 131
two-channel electrical counter, 689
Twolined chestnut borer, insecticides against, 427
Twospotted spider mite, metabolism of acaricide in, 5, 574
Nicotiana species resistance to, 341
Tyria jacobaeae, against tansy ragwort, 494

U

ULV carbaryl, against *Aulocara elliotti*, 596
ULV malathion, against western corn rootworm, 565, 651
ULV spray, effects of droplet sizes on deposition of, 751

V

Vacuum collection and trituration of granulosis virus diseased larvae, 793
Vapor heat treatment, against oriental fruit fly, 240
Vegetable leafminer, control of, 108
Vegetable weevil, control of, 699
Vespula, attractiveness of synthetic compounds to, 629

W

Western corn rootworm, population suppression of, 651
greenhouse evaluation of soil insecticides for control of, 772
Wheat stem maggots, seasonal appearance and movement of, 558

Whitefringed beetles, control of, 804
Wireworms, corn feeding by, 793
Woolly apple aphid, damage by, 137
Watermelon mosaic virus 1, spreading of, 361
Western corn rootworm, ULV malathion against, 525
Wheat, malathion penetration in, 477

X-Y-Z

Xenopsylla cheopis, control of, 235
Yellow clover aphid complex, hosts of, 453
Yellow fever mosquito, repellents for, 71
Zebra caterpillar, control of, 697
